To Whom It May Concern,

We are happy that our son is completing his second year at Żyrafa. The curriculum, which is sent to parents each month, emphasizes giving children the freedom to explore and grow. The teachers are warm and caring. The children eat nutritious home-cooked meals and spend a lot of time outdoors. Żyrafa also provides weekly swimming lessons. There is a rich series of field trips to museums, the zoo, specialty playgrounds, factories, and other locations. Local holidays, like Christmas, Easter, grandparents day are all celebrated with special art projects, games, and involvement from parents. Our son has made many friends at Żyrafa—both Polish and expats — and we are confident that he is well cared for and intellectually stimulated.

Sincerely,

Umur Tuncer
