To Whom It May Concern,

Our daughter attended pre-school three days per week for two years (from age 2 to 4) at Przedszkole Zyrafa. She spent a lot of time with the teachers and staff who cared for and taught lessons to the children, taking them on field trips, swimming lessons, and walks. I am so grateful my daughter had the opportunity to be involved in such a loving and caring environment while away from home. I can say this with full confidence as we lived right next door to the preschool, where I could observe the daily interactions between teachers and students.

The teachers are of high quality. They are kind, soft spoken, patient, professional, fun, and confident. These traits keep the children focused and relaxed. I have never been so impressed with the organization and structure of a pre-school. Our daughter was happy every day she came home, often asking when she could go back. She would sing, dance, talk about what she learned that day, and who she played with.

I highly recommend Zyrafa pre-school to anyone. We are sad that our upcoming relocation will force our daughter to leave such a wonderful place; however, we are delighted with her wonderful educational experience. Thank you Zyrafa!

Sincerely,

Stephany Brisco
